

# COMPOUNDED ORAL DRENCH MELOXICAM

Meloxicam is a non-steroidal, anti-inflammatory drug (NSAID). It is a prescription-strength, anti-inflammatory and anti-pyretic (fever reducer). It is only available through veterinarians. In Europe<sup>1</sup> and Canada<sup>2</sup> the active ingredient is labeled for the treatment of lameness, MMA (mastitis-metritis-agalactia) and for the relief of post-operative pain associated with minor tissue surgery, such as castration and tail docking.
