product details.

BEST PRACTICES FOR USE¹

- 1 Mix fresh every 24 hours
- 2 Warm water improves UltraFlor solubility
- 3 Thoroughly mix and let bubbles dissipate
- 4 Poor water quality may make it more difficult to mix UltraFlor
- 5 Stir pumps can be used with UltraFlor
- 6 Bring UltraFlor to room temperature if shipped at a cold temperature
- 7 A small amount of residual inactive material may remain at the bottom of the bottle; this does not affect product efficacy
