

MELOXICAM

COMPOUNDED ORAL DRENCH

Meloxicam is classified as a selective cyclooxygenase-2 (COX-2) inhibiting non-steroidal anti-inflammatory drug (NSAID). It is used for treatment or relief of fevers, pain and inflammation, and it is only available through veterinarian prescription. Meloxicam is available in water-soluble (0.6%) and oral drench (1.5%) formulations for flexible administration and targeted dosing; therefore, it is adaptable across different production stages.

MELOXICAM

Oral Drench

- **Concentration:** 15 mg/mL
